

SARVESH CHOUBEY

Linux System Administrator | Linux Support Engineer | Performance Marketing (Meta Ads & SEO)
Garhwa, Jharkhand, India | +91 9102311130 | sambhachoubey@gmail.com | linkedin.com/in/sarveshchoubey1 | github.com/S4RV3S

PROFESSIONAL SUMMARY

Linux System Administrator (Ubuntu/RHEL) with internship experience across 10+ VMs — user/group management, file permissions, SSH, Bash scripting, and AWS (EC2, IAM, VPC, S3). 90%+ first-level resolution rate in Tier 1/2 IT support. Also runs freelance performance marketing since 2023 (Meta Ads, SEO, WordPress deployment), generating \$7,000+ in ad revenue. Independently owns end-to-end website operations — hosting, DNS/SSL, and deployment — building and maintaining projects with AI-assisted development workflows.

CORE COMPETENCIES / TECHNICAL SKILLS

Linux & Servers: Ubuntu, RHEL, User/Group Mgmt, File Permissions, SSH, Bash, Package Mgmt, Troubleshooting

Cloud & DevOps: AWS (EC2, IAM, VPC, S3), Docker, Git/GitHub, CI/CD

Networking: TCP/IP, DNS, DHCP, HTTP/HTTPS, VPN, Routing & Switching

IT Support: Tier 1/2, Help Desk, Incident Management, Root Cause Analysis

Scripting & Tools: Python (Basic), SQL, HTML/CSS/JS, Power BI, Excel

Marketing & SEO: Meta Ads Manager, Google AdX/AdSense, Adsterra, Google Analytics, Search Console, WordPress

PROFESSIONAL EXPERIENCE

Cloud Support Intern | ERP Analytica, Dehradun

July 2024 - January 2025

- Administered 10+ Linux VMs — user/group management, permissions, SSH, Bash scripting, package installs.
- Delivered Tier 1/2 support for 15+ users with 90%+ first-level resolution rate.
- Supported AWS infrastructure (EC2, IAM, VPC, S3): provisioning, access management, storage config.
- Resolved network issues (TCP/IP, DNS, HTTP/HTTPS) and maintained technical documentation.
- Built SQL/Power BI reporting for infrastructure and support tracking.

AWS DevOps Training Program | Train With Shubham

January 2025 - April 2025

- Hands-on training in Linux administration, AWS, CI/CD, and containerization.

Website Operations & Performance Marketing (Freelance)

2023 - Present

- Generated \$7,000+ in ad revenue via Meta Ads traffic monetized through AdX, AdSense, and Adsterra.
- Built and deployed WordPress landing pages end-to-end, including server hosting.
- Added SEO capability using Google Analytics and Search Console to grow organic traffic.

FEATURED PROJECTS

SenkaiWorld — senkaiworld.in | GitHub: S4RV3S/senkaiworld

- Deployed and maintain an Astro site on Cloudflare Pages, including DNS/SSL and ongoing server maintenance.
- Improved on-page SEO and site performance to grow organic traffic and visibility.

TouchHeartMagic — touchheartmagic.fun

- Built a Meta Ads-driven landing page optimized for engagement and ad monetization.

CERTIFICATION

DevOps - Zero To Hero (Junoon Batch 9), Train With Shubham | July 2026 | ID: IQWUS7IJ
